RE: Program Exchange in Endocrinology Expertise of the section/Board of Endocrinology

Dear Delegate,
Dear Colleague,

I have the pleasure to inform you that **Novo Nordisk Europe** has accepted to continue to generously support the fellowship program called "3E" Exchange Endocrinology Expertise. In addition, **Novartis International** has also accepted to join this programme and to generously sponsor candidates. The aim of this program is to harmonise and improve the training of the new young endocrinologists within Europe. The rules are described on the enclosed document "Exchange in Endocrinology Expertise".

The duration for a grant will be for a stay up to 6 months in one of the RQE centres. For the year 2008, we have the possibility to distribute 6 grants in endocrinology, diabetes and metabolism for a period up to 6 months. The applications for such a fellowship should be sent **until MARCH 30, 2008** to my address (written ahead of this sheet).

The selection of the candidates will be done by the Bureau of the Section/Board of Endocrinology and by external reviewers if needed.

I would therefore be very grateful to you if you could spread the information about this program in your country.

I thank you very much for your help and collaboration. If you need any further information, please do not hesitate to contact me.

With my very best regards.

Prof. Dr. R.C. Gaillard
President
Section/Board of Endocrinology
of the UEMS
