DOPS Assessment for Accreditation in Diagnostic Upper Endoscopy

To become an accredited in endoscopy, the candidate must be assessed by two different consultant assessors. This is over two cases assessed simultaneously by the two assessors. Please read the guidance notes– **this is very important for the Summative Assessment**, which leads to Accreditation.

If a candidate meets the Performance and DOPS standards, they meet the set criteria for diagnostic upper endoscopy. Please tick all four boxes above if appropriate, to confirm this.

If they do not, then they do not yet meet the set criteria.

Please also complete the expert global evaluation below – this will be used to validate the process, and will not be used in assessing the candidates.

Confidential: Expert Global Evaluation - Overall judgement

In order to help with setting standards and validating the process, please give your expert global assessment **independent** of the above grading – in other words, do you personally judge that the endoscopist is ready to become an independent diagnostic upper endoscopist. Please check one of the two boxes below.

The candidate: should be accredited for diagnostic upper endoscopy
should not yet be accredited for diagnostic upper endoscopy

We certify that GMC no.

Meets the performance criteria outlined in box 1 (page 1)

Meets the DOPS criteria outlined in box 2 (page 1)

Signed:

Assessor 1..... GMC number.....

Assessor 2..... GMC number

Four DOPS forms (two from each assessor), and one Declaration should be fully completed and sent to the JAG, c/o Sarah Carruthers, JAG Central Office, 5 St Andrews Place, Regents Park, London NW1 4LB
