Introduction

The National Trainee Survey is an annual survey commissioned and administered by the General Medical Council (GMC). The survey has been in place since 2010.

The purpose of the survey is to gather feedback from trainees to help local education providers such as hospitals and general practices improve their training practice. It also helps postgraduate deaneries/local education and training boards (LETBs) manage training programmes, which are usually delivered across a number of different local education providers (LEPs). The GMC use red and green colour coding to highlight results that are significantly above or below the average to help identify areas for investigation. The trainee survey is comprised of a set of generic questions which test trainees' perceptions of training providers' compliance with the GMC standards, and specialty specific questions set by Royal Colleges and Faculties which test their perceptions of the quality of delivery of the curricula. It is a unique opportunity for managers of training programmes to hear the views of their trainees.

The generic questions test trainee's perceptions of the following areas:

- Overall satisfaction
- Clinical Supervision
- Clinical Supervision (out of hours)
- Reporting Systems
- Workload
- Teamwork
- Handover
- Supportive environment
- Induction
- Adequate Experience
- Curriculum coverage
- Educational Governance
- Educational Supervision
- Feedback
- Local Teaching
- Regional Teaching
- Study Leave
- Rota Design

The numbers of trainees in each Deanery/LETB completing the survey were:

Deanery / LETB	2017	2018	2019
Health Education East of England	<3	<3	<3
Health Education N, C & E London	<3	0	0
Health Education North East	<3	<3	0
Health Education South London	<3	<3	<3
Health Education South West	<3	<3	0
Health Education West Midlands	0	0	0
Health Education Yorkshire and the Humber	<3	<3	<3
NHS Education for Scotland	<3	0	<3
Total	8	7	6

The data below has been aggregated across the years 2017, 2018 and 2019 to provide some comparison across Trusts/Boards. Aggregated data should be interpreted with caution as the same trainee(s) may have completed the survey for the same Trust if they have been in the same location for more than one year.
